

A school which promotes respect and healthy living and where everyone feels valued and able to reach their full potential

19 January 2026

Dear Parents/Carers,

Staffing Update

Mrs Timmins has recently informed me that she will be retiring at Easter. She has worked at Mundella for almost 22 years and supported many children during her career here. I would like to thank her for all her hard work and wish her a long, healthy and happy retirement!

Poor Weather

I want to say thank you to all parents who managed to get their child into school on the Friday when it snowed. Driving conditions were difficult and, unfortunately, we were unable to open school at the normal time. However, it was lovely to see children arrive at 10am and I hope they managed to enjoy the unusual day.

If we do have poor weather in the future, we will always make a decision as early as possible to let parents know whether school is open, opening later or closed. This will be communicated to parents via Marvellous Me and email. I also want to say a huge thank you to the staff for their help on this day. Thank you!

New Books

We were really excited to receive our £2000 worth of free books from our Sponsored Read. All those minutes of reading has meant we've been able to give lots of fabulous new books to every class.

Playground development

As I am sure you are aware, we are looking at ways of developing our playground and this week was the 'launch' of the new initiatives we are introducing. I have to say the children have been absolutely brilliant and it has been lovely to see them engaging in some of the different zones we have on offer. It's still very early days but we would really appreciate further donations to develop and enhance the areas we have. If parents do have any suitable items to donate they would be gratefully received - we are particularly looking for dolls, dressing up clothes and scooters. Thank you in anticipation of any help you can give!

A school which promotes respect and healthy living and where everyone feels valued and able to reach their full potential

Y6 Robotics Day

The Y6s enjoyed a really interesting day where they programmed computers to make robots perform different tasks. They all did a brilliant job and it was impressive to see how their skills and knowledge developed during the day - well done Y6s!

Yours sincerely,

William Smith
